Health Foundation

PRESENTS

Healthcare Heroes

Who We Are

Healthcare Heroes is an employee-directed giving program that supports health initiatives and programs at the SMMC. Organized by the San Mateo County Health Foundation, it is the annual fundraising campaign where all SMMC employees are asked to contribute.

100% of employee giving benefits SMMC.

The Healthcare Heroes employees donate funds to support the purchasing of much needed equipment, and to provide seed money for innovative programs that support patient experience improvements at the San Mateo Medical Center hospital and clinics.

*"As a contributor for many years I have personally witnessed all the equipment we have been able to purchase for the hospital and clinics. I give because **it's important to give back.**"*

Chronic pain patients participating in pain management exercise.

What We've Done

2016 List of Funds Awarded:

- ▶ **Cardiology**
Provided funding for 8 Ergonomic Chairs for Cardiology/Neurology Staff
