

Together We Did More, Here's How

We are so grateful for your support of San Mateo County Health Foundation. As we mark the final days of the festive season, we want to take a moment to look back on the past year and thank you all for your contributions over the last 12 months.

Check out our video to see how your donations helped further our mission. It's longer than a minute, but we promise it's well-worth the view.

Please consider giving to our year-end appeal campaign running through January 31st, which has been our saving grace to add much needed funding for our programs.

We couldn't do what we do without your generosity and willingness to help change the lives of over 77,000 patients and their families who count on the only public hospital in the county. *TYSM!*
